

Agvance Inform

Keep Mobile Staff & Growers Informed

The Inform app equips sales staff and other mobile personnel with real-time updates on application status and job progress. Work orders can easily be set to the “Ready” status notifying dispatch that jobs are available and ready to be assigned to applicators.

Features such as push notifications, messaging, and in-app notifications give your sales team access to the most up-to-date information. Voice-to-text options also provide hands-free access to customer information, promoting safe driving practices.

USING THE INFORM APP, SALES STAFF CAN...

- Update mobile staff of the application status and job progress
- View the work order pipeline and receive real-time status of application jobs
- Track and monitor the progress of assigned jobs
- View jobs on a map to relay real-time status to customers
- Mark a field’s crop chemistry on a map
- Analyze the ticket list detail for job information and the current status
- Filter the list based on ticket status, date range, etc.
- Send job-specific messages for all stakeholders to review
- Tap on “Mark Ready” to notify the dispatcher the job is ready for application
- Tap on an applicator to display the breadcrumb progress of a current job
- View applicators schedules and the order of pending jobs
