

Checks

Last Modified on 08/04/2023 3:10 pm CDT

Checks are compatible for use with Payroll, Accounts Payable, and Grain Patronage areas of Agvance. Each check is printed on 8 ½ x 11 paper and consists of the check, vendor stub, and file stub.

Security Feature Highlights

All checks feature a keyhole icon printed in red thermochromic ink on the front of the check. Thermochromic inks react to changes in temperature. If touched or blown on, the icon will disappear and reappear once the area is cooled. This reaction cannot be replicated on a color copier or laser printer, making this security feature an excellent deterrent to forgeries.

Checks may have 1 or 2 signature lines.
