

EBID to GLN Conversion

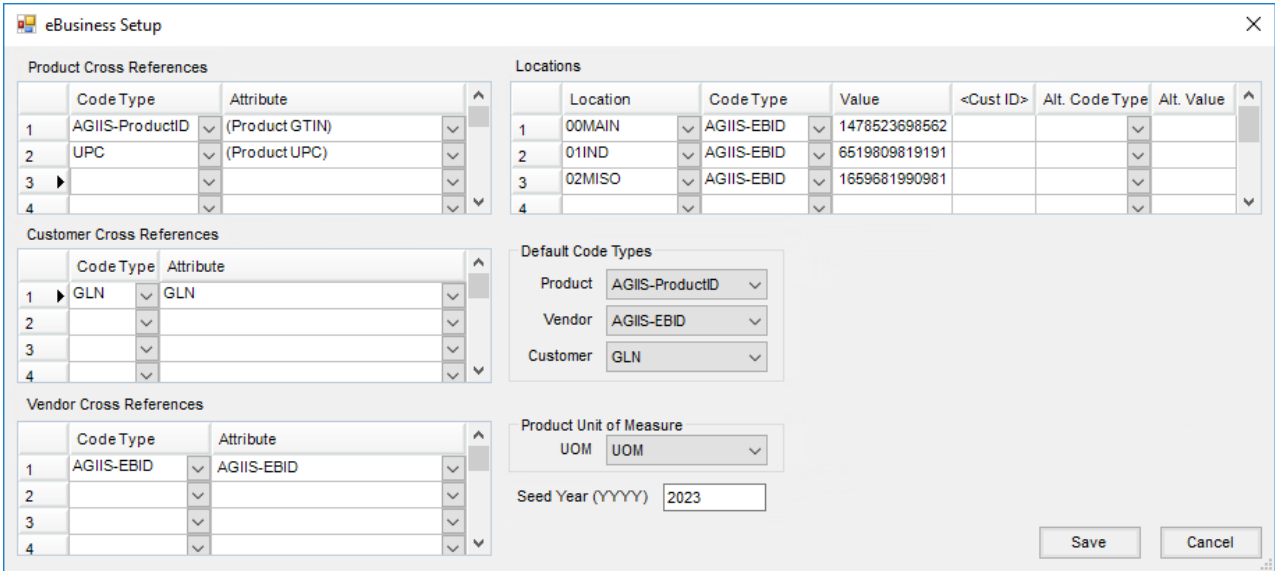

Last Modified on 07/28/2023 11:26 am CDT

When making the conversion from EBID to GLN, multiple areas in Agvance as well as AGIIS Customer Web Services need updated.

Note: If using Grower Orders, contact SSI to coordinate updating GLNs.

Updates to Agvance

Open the *eBusiness Setup* window at *Setup / E-Business* in the Supplier eLink module.

In the *Vendor Cross References* grid, change the *Code Type* to *AGIIS-EBID*, and, if a new vendor attribute was added to store the GLN, select *AGIIS-EBID* in the *Attribute* column.

In the *Locations* grid, change the *Code Type* to *AGIIS-EBID* and set the *Value* column to the GLN value for each location.

In the *Default Code Types* area, choose *AGIIS-EBID* as the *Code Type* for *Vendor*.

Update to the AGIIS Customer Web Service

For the AGIIS Customer Web Service, change the value of the *Retailer IC Code* under *Setup / Company* to be the company's GLN.

The screenshot shows a 'Company Information' window with the following fields and values:

Name	Software Solutions Company		
Address	123 Any Street		
City	Hometown	State	IL
Zip	62565		
Short Name	SSI	<County>	Shelby
Phone	217-123-4567	Fax	217-123-4567
Emergency Phones			
Retailer IC Code	1234567891001		
<Background Color>			
DUNS #			
F.E.I. #			

Buttons: Remit Addresses..., Save, Cancel

Agrimine, EZTrak, and Grower Sales Export Setup

Navigate to *Hub / Setup / Company*. Enter the password on the *Password Entry* window, and on the *Company Information* window, edit the *Retailer IC Code* to the appropriate GLN.

This screenshot is identical to the one above, showing the 'Company Information' window with the 'Retailer IC Code' field highlighted in red.

At *Hub / Setup / Locations*, edit the *IC Code* for each location to be the appropriate GLN.

If reporting IC Codes as the Reseller ID then edit the ResellerID cross reference by editing the Customer Profile tab

at Accounting / File / Open / Customers.
