

Product Order from Field Plans to Bookings

Last Modified on 03/05/2026 7:45 am CST

When importing Field Plans into a Booking, an option to not combine like items can be selected on the *Import Plans / Sales Orders* window. If this option is selected, the Products will display in the order they were entered on the Field Plans.

At *Accounting / A/R / Product Bookings*, select **Add**. Choose the appropriate Field and select **Import Plans/Sales Orders**. On the *Import Plans / Sales Orders* window select Field Plans or **Tag All**.
