

Grower360 Grain - SKY Admin

Last Modified on 02/28/2025 1:33 pm CST

Manage Grain reports and Cash Bid setup at *SKY Admin / Grower360 / Operations*.

Grain

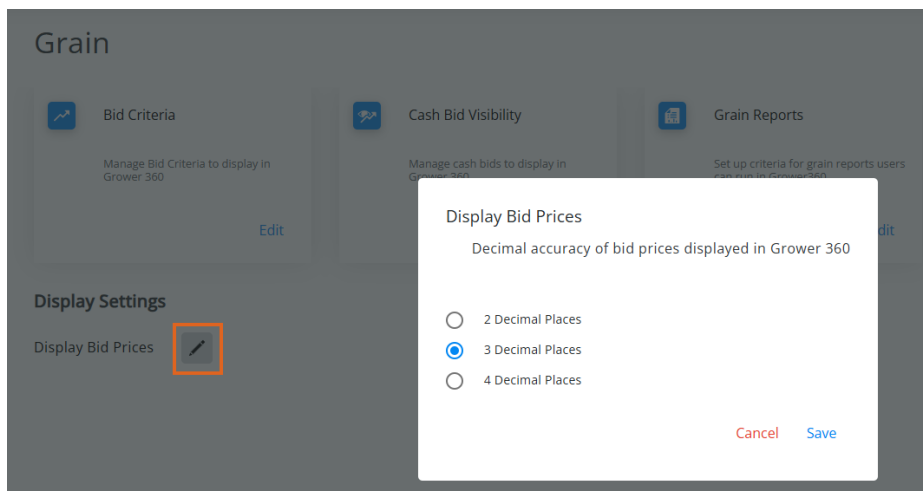

Manage grain reports and cash bid setup in Grower360.

[SETUP](#)

To see a video of Grower360 Setup in SKY Admin, see [here](#).

Decimal Accuracy

Select the **Pencil** icon on *Display Bid Prices* under *Display Settings* to choose the decimal accuracy of bid prices displayed in Grower360. The decimal accuracy for bid prices displayed in Grower360 can be set to two, three, or four decimal places. If a decimal accuracy is not selected, Cash Bid prices default to display four decimals.

Bid Criteria

Selecting **Edit** on the *Bid Criteria* card displays the *Bid Criteria* page.

Bid Criteria

Cash Bids

Grower360 can be set up to display cash bids by selecting **Setup** on the *Grain* card. More information on Barchart and DTN setup can be found [here](#).

Selecting **Edit** on the *Cash Bid Visibility* card displays the *Cash Bid Visibility* page.

Cash Bid Visibility

Manage cash bids to display in Grower 360

[EDIT](#)

The information displayed is pulled from the rows in the *Futures Price Setup* grid found in Agvance Grain.

Cash Bid Visibility

🔍 Search Cash Bids

<input checked="" type="checkbox"/>	Commodity Corn	Location 00MAIN	Bid Criteria Direct	Future Month Alias SEPT24	Delivery Period Start 09/01/2024	Delivery Period End 09/30/2024	Commodity Symbol ZCN24
-------------------------------------	-------------------	--------------------	------------------------	------------------------------	-------------------------------------	-----------------------------------	---------------------------

- The individual pricing rows can be toggled on or off to choose which prices to advertise.
- Each row must have a *Delivery Period Start* and *End* date as well as a *Commodity Symbol* for the pricing elements to display in Grower360.

Grain Reports

Select **Edit** on the *Grain Reports* card to set up criteria for Grain reports run in Grower360.

Grain Reports

Set up criteria for grain reports users can run in Grower360

[Edit](#)

The *Delivered Grain*, *Assembly Sheets with Scale Tickets*, and/or *Grain Bank Statement* toggles on to allow Grower360 users to run and print their own respective reports.

Grain Reports

Set access and criteria for reports in Grower360

- Delivered Grain Report
- Assembly Sheets with Scale Tickets
- Grain Bank Statement

Advance Forms:

- Form 3
- Form 4

Report Criteria:

- | | |
|---|--|
| <input checked="" type="checkbox"/> Print Settlement | <input type="checkbox"/> Show Drying Charge as Premium/Discount Values |
| <input type="checkbox"/> Print Bin Reference | <input type="checkbox"/> Remaining Units Only |
| <input checked="" type="checkbox"/> Print Scale Ticket Comments | <input type="checkbox"/> Suppress Reversed Settlement Info |
| <input type="checkbox"/> Print Freight Vendor and Rate | <input type="checkbox"/> Suppress Reversed Scale Ticket Info |

When any of these options are turned on, a **Create Report** option is available in the upper right-hand corner of the *Grain* menu in Grower360. For more information on this, see the Grower360 Grain document [here](#).

Note: The Grain Bank Statement report is only available for STLM Grain companies.
