

Dispatch Job Status

Last Modified on 09/03/2024 1:28 pm CDT

For companies using the Dispatch module, this utility found under the *Utilities* menu in Blending allows viewing the status of application jobs filtered by the selected criteria. Blend Tickets may be opened and edited from this window. **Set Ready** allows the *Dispatch Status* on the selected Blend Ticket to quickly be changed to *Ready*. For more information, contact SSI.
