

Vehicles

Last Modified on 02/02/2024 9:43 am CST

Optionally enter vehicles to be entered on various jobs throughout the program.

The screenshot shows a software window titled "Edit Vehicle Information". It contains the following fields and controls:

- Vehicle ID: Text box with "Pete200"
- Vehicle Type: Dropdown menu with "Tender" selected
- Description: Text box with "Liquid Nurse Truck Unit200"
- Make/Model: Text box with "Peterbuilt"
- Model Year: Text box with "2020"
- Capacity Type: Dropdown menu with "Volume" selected
- Purchase Date: Date picker with "11/05/2023"
- Capacity: Text box with "5000"
- Serial #: Text box with "321-8871-RW87"
- License Plate: Text box with "336633"
- Lic. Exp.: Date picker with "12/31/2024"
- Weight: Empty text box
- Notes: Large empty text area with scrollbars
- Inactive: Checkbox (unchecked)
- Location: Dropdown menu
- Buttons: "Threshold", "Save", "Cancel"

- **ID** – Enter up to 10 characters to uniquely identify each Vehicle.
- **Vehicle Type** – Selecting the **Arrow** displays the various types used in the past (such as *Tender*, *Nurse*, *Spray*, etc.). New types may also be entered into this field.
- **Description** – Enter a description of the Vehicle.
- **Inactive** – Selecting this option makes the Vehicle unavailable on transactions in the program.
- **Location** – Select the Location associated with the Vehicle.
- **Threshold** – This allows a threshold/limit to be created for this selected Vehicle in the Dispatch module. This option is only available if the Dispatch module is activated.
- **Vehicle Details** – The rest of this screen holds optional details that appear on the Vehicle General Information report.
