

Compare Patrons

Last Modified on 02/09/2024 3:16 pm CST

This utility compares a Patron's status between the current year and the selected Agvance Year. This is designed to be used before capturing to make sure the Patron's status matches in the current and prior year data.

Compare Patrons [Close]

Based on the capture set up below:
This process will compare the patron active status differences for the selected Agvance Year and the current database. It will also find patrons missing from the current database that exist in the selected Agvance Year.

Generate Yearly Patronage Totals

<input checked="" type="checkbox"/> Generate Sales Totals	Start Date [Date Picker]	End Date [Date Picker]
<input checked="" type="checkbox"/> Generate Purchase Totals	[Date Picker]	[Date Picker]
<input checked="" type="checkbox"/> Generate Additions/Deductions
