# Booked Seed Dashboard

Last Modified on 04/04/2025 10:18 am CDT

This dashboard is based on data from a scheduled extract that occurs daily.

Purpose

The Booked Seed Dashboard provides an overview of booked seed quantities, showing how much seed is booked by variety by crop and by location by crop in the current fiscal year. The map shows how much seed is booked by customer city.

Details

The Booked Seed Dashboard only includes products with a *Crop ID* and *Variety* filled out on the *Seed/Lots* tab in Agvance. This information can be entered manually or downloaded using Data Link.
