

AP User Activity Dashboard

Last Modified on 12/01/2022 7:38 am CST

Purpose

The AP User Activity dashboard can be used to check user metrics for A/P Bills and A/P Payments over a given period of time.

Details

Some transactions on this dashboard are based on the date the transaction was added instead of the date manually selected by the user for the transaction.

- **AP Bill Date** – This is based on the transaction date.
- **Payment Date** – This is based on the check date.
