

Managing Grower Orders without Supplier Connectivity

Last Modified on 04/19/2022 4:09 pm CDT

This video provides an overview of the seed ordering process in Agvance using Grower Orders without establishing connectivity to the Supplier's web services. Learn how to enter seed orders, and allocate available product while updating the corresponding grower booking and vendor PO. This video also describes the advantages of adding the Supplier e-Link module, which provides real time product approval and allocation through a Supplier's web services.
