# Settings - Inform

Last Modified on 01/08/2026 12:18 pm CST

The app theme is automatically determined by device settings. If the device is set to Light Mode, the app will display in light colors. If set to Dark Mode, the app will automatically switch to dark colors.

To change the theme, update the device's appearance settings.

Additionally, go to *Settings* to log out of the app.

Information regarding the app can be found here as well. This information includes the *App Version* and the user currently logged in.
