Futures Month Pricing Import Criteria

Import a TSV file at *Grain / Setup / Futures Month/Pricing*.

The following criteria must be followed:

- **Commodity** – This IS required. The Commodity must be active in the database.
- **Location** – The *Location* IS NOT required. This can be blank, an active Location, or a Location in the database to which the user has access.
- **Exchange** – The *Exchange* IS NOT required. This can be blank or an Exchange in the database.
- **Bid Criteria** – This IS NOT required. This can be blank or a Bid Criteria in the database.
- **Futures Month** – The *Futures Month* IS required and cannot be longer than 10 characters.
- **Starting Delivery Period** – This IS required and must be formatted as *MM/DD/YYYY* or *MM-DD-YYYY*.
- **Ending Delivery Period** – This IS required and must be formatted as *MM/DD/YYYY* or *MM-DD-YYYY*.
- **Futures Month End Date** – The *Futures Month End Date* IS NOT required for editing but IS required for adding. If entering data, it must be formatted as *MM/DD/YYYY* or *MM-DD-YYYY*.
- **Futures Price** – This IS NOT required. If entering a *Futures Price*, it must be a number rounded to the Futures Price decimal accuracy. Select **Futures Web Service Setup** at *Setup / Preferences*. If this is not set up, the default is 4.
- **Basis Price** – This IS NOT required. If entering a *Basis Price*, it must be a number that is rounded to the Futures Price decimal accuracy. Select **Futures Web Service Setup** at *Setup / Preferences*. If this is not set up, the default is 4. If blank when editing and a match is found for the record, the Basis Price will not be updated.
- **Commodity Symbol** – This IS NOT required. If entering a Commodity Symbol, data cannot be longer than 10 characters.
- **Futures Month Alias ID** – The *Futures Month Alias ID* IS NOT required. This can be blank or a Futures Month Alias ID in the database can be used.
