

# Delivery Jobs in List View - SKY Dispatch

Last Modified on 08/04/2025 1:14 pm CDT

View Delivery Tickets created in Agvance by selecting the *Viewing* menu and choosing *Delivery Tickets*. The grid operates much like an Excel spreadsheet. For more on how to use this grid, see [Using Grids in Agvance SKY](#).

Jobs listed can be filtered by selecting the **Filters** icon and specifying criteria.

Quick Filters set up under [Personalize](#) can be selected from the *Quick Filters* menu in the bottom navigation. Quick Filters give the ability to apply multiple filter criteria at one time.

View Delivery Drivers assigned to jobs or assign/unassign them from this page. Blue fonts indicate this field can be selected to view more information or make changes to the job.

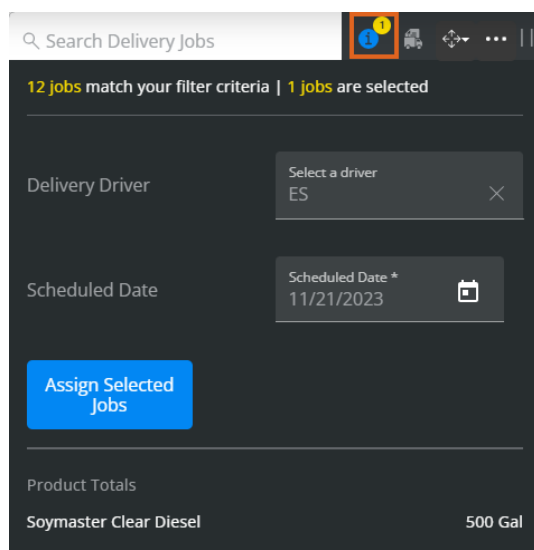

When jobs are marked as *Completed*, a text and/or email notification is sent to growers in Grower360.

New ticket notifications display at the top of the *Jobs* grid only for Locations enabled under *Personalize*. Select **Refresh Grid** to bring the new job into the list.

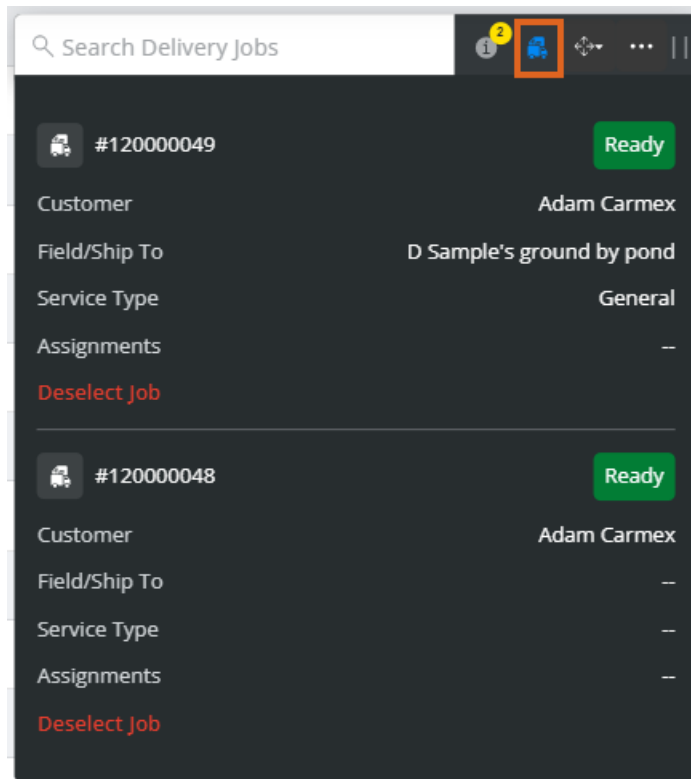

## Search Bar

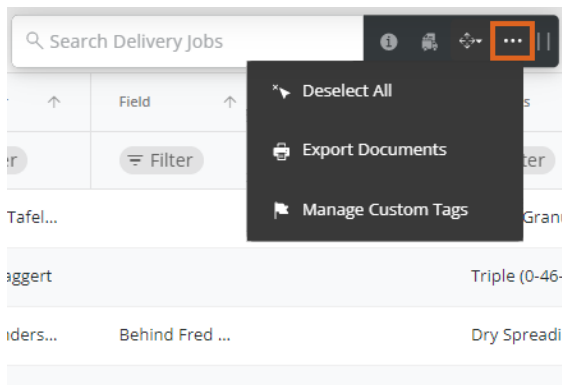

- **More Information Icon** – This displays *Product Totals*. and gives the ability to indicate a *Delivery Driver*. Upon selecting an *Assignee*, the ability to indicate a *Scheduled Date* displays.

- **Selected Job Information** – View information related to the selected jobs including the *Customer*, *Field/Ship To*, *Service Type*, and *Assignments*.

- **Dock Search Bar** – Dock the search bar to the right, left, or top of the screen.
- **More Options** – Choose the **Ellipsis** to *Deselect All*, *Export Documents*, or *Manage Custom Tags*.

- Selecting **Export Documents** gives the option to export *Bill of Lading(s)*, *Delivery Ticket(s)*, *HazMat Sheet(s)*, *SDS(s)*, and/or *WPS(s)* as PDFs.

If multiple Delivery Tickets are selected, one PDF will open with each Delivery Ticket and/or Bill of Lading having its own page in the file. Additionally, jobs will be displayed in the order they are selected.

**Note:** An established Agrian link is required to export SDS and WPS documents.

## Export Documents

☒ Bill of Lading(s)  
Exports immediately

☒ Delivery Ticket(s)  
Exports immediately

☒ HazMat Sheet(s)  
Exports immediately

☐ One per Batch

☒ SDS(s)  
Exports immediately

☒ WPS(s)  
Exports immediately

[Cancel](#) [Export](#)

- Choosing **Manage Custom Tags** gives the ability to add or remove Custom Tags per job(s) selected.
- **Drag Search Bar** – Select and drag to move the search bar to a different area.

## Delivery Ticket Details

Selecting a Delivery Ticket displays the *Delivery Ticket Details* window which includes the *Customer Info*, *Custom Tags*, and *Product s*.

The *Customer Info* section includes the *Customer*, *Address*, and *Ship To*. Select the **Pencil** icon next to the *Priority* to modify if needed.

**Note:** [Priority Levels](#) must first be established before they can be added to a Delivery Ticket.

In the *Custom Tags* section, select in the text field to add from the drop-down.

**Note:** Custom Tags must already be set up on the *Custom Tags* tab under [Company Settings](#).
