

Supplier eLink EDN Import

Last Modified on 12/10/2024 11:26 am CST

Supplier eLink provides the ability to import supplier's Electronic Delivery Notices (EDN) for seed, and in some cases seed and crop protection. Those EDNs can then be imported into a Purchase Receipt in Agvance.

B2B login information, found at *B2B Setup / Setup / Electronic Delivery Notifications (EDN)*, is required for each Vendor utilizing the EDN web services. Setup information specific to individual Vendors can be found on the tabs below.
