

Target Pests

Last Modified on 02/17/2025 11:20 am CST

Target Pests can be selected on Blends or Plans as well as by the Applicator in the Conditions on the Apply app. They are required in some states for application records and print on the Custom App Sheet when selected.

Target Pests are set up in Agvance at *Hub / Setup / Target Pests*. Enter the *Target Pest* name in a blank row and select **Save**.
