Accounting

End of Periods

- **FTM-4298 / End of Year Database Renaming** – When closing fiscal month 12, the year must be selected from the *Archive Database name* drop-down. In AgyUtils, when renaming a prior year database, the endofyear table in the current year is updated.

Grain

Operations

- **FTM-4307 / Add Additional Payees to Positive Pay Export** – When using *Format 2* for the Positive Pay export, all Payees from the Settlement's *Paynames* tab appear on the check stub (up to 80 characters) and will be included in the export.
