

Blends - SKY Order

Last Modified on 05/20/2025 11:35 am CDT

Use the *Search* field to search for Blends by *Ticket #*, *Date*, *Customer*, *Location*, and *Field*.

Note: Blends must be enabled in [SKY Admin](#) before they can be viewed in SKY Order.

Select the **Ellipsis** icon to *View PDF - Custom App*, *Download PDF - Custom App*, *View PDF - Blend*, *Download PDF - Blend*, *Create Automated Blender File*, *Edit Blend*, *Reverse*, or *Void*.

Note: Only unprocessed (not invoiced), not loaded Blends can be edited.

Blends can be added by selecting the **+ Add Blend** button in the bottom right.

Use the navigation on the left to move to different sections of the Blend.

Agronomy Order

Location

1. Indicate the *Location* from the drop-down.

Location

Location *

SSI Farm Services - IL

Template

2. Optionally select a template from the *Template* drop-down.

Note: If adding a Blend from a Template, some Product information will default into the Blend.

Field

1. Select **+ Add Field**. A **grid** of Fields displays. Use the *Search* field to find the specific Fields or scroll through the list

Select & Close

- The **Filters** button to the far right of the *Search* bar can be used to narrow down the list of Products. The **Show Selected** button displays only Products that have been checked for the Blend.
- In the *Products* section of the Sales Order, indicate the *Quantity* for each Product.
- Products can be reordered by selecting the grid of dots on the left and dragging to the appropriate position.
- Choose **+ Duplicate** to add another line of that Product.
- The **Delete** icon can be selected to remove a Product line.

Product Grid

- Choosing a *Ship From Location* above the grid applies to all Products. The *Ship From Location* can also be indicated on each Product line item. Once a Ship From Location is selected, the *Ship From Department* drop-down becomes available.
- Under the *Calculate By* column, choose *Rate/Unit*, *Total Product*, or *Blended*.
- Enter the *Calculate By Amount* for each Product then select **Recalculate**.
- The *Exclude from Mix File* option can be selected for products that should not be sent to the automated blender. If the VRT checkbox was selected in the *Order Details* section, the *Mix Group* can be edited to indicate what should and should not be blended together.
- If applicable, a *Lot Number* can be selected from the drop-down.
Note: Only existing Lot Numbers can be selected.
- To add another line of the same Product, choose **+ Duplicate**.
- The **Delete** icon can be selected to remove a Product line item.
- Review the totals below the *Products* grid.

Density	Lbs/Acre	Total Lbs	CuFt/Acre	Total CuFt	% Water	% Clay
60.000	60.870	5,960.000	1.015	99.450	0.000	0.000

- To recalculate the Blend accommodating for water, filler, or carriers, choose an *Adjust By* option which is based on the Product Set selected for the Blend. Enter the *Amount* then select **Adjust** to update the Blend. Use the *Carrier* checkbox in the grid to identify which Product is the carrier.

Save and Add Pricing

- The first Field displays with *Batch* and *Individual Ticket Quantities* available for review.

Wire East

Field Quantity
60.57 Acres

Batch Quantities				Individual Ticket Quantities			
Product	Rate	Total Product	Blended Product	Product	Rate	Total Product	Blended Product
Urea (46-0-0)	60.870	13,808.360	13,810.000	Urea (46-0-0)	60.870	3,686.896	3,690.000
Dry Spreading	1.000	226.850	226.850	Dry Spreading	1.000	60.570	60.570

- The first Customer on the Field is listed below the *Batch* and *Individual Ticket Quantities*. Here, the *Fert\$/Tons*, *Lock Prices*, and *Price (\$)/Unit* can be indicated.
 - Optionally *Apply pricing to all Customers on this Field*. The *Same Customer pricing for this and remaining fields* option is available for all Customers on the Field. The *Same Customer pricing for this and remaining fields* option gives the ability to set pricing on a Customer and have that pricing carry through for that Customer for the remaining tickets created within the batch. The *Apply pricing to all Customers on this Field* option applies the pricing set on the first Customer to all other Customers on that Field.
- Note:** The *Apply pricing to all Customers on this Field* and the *Same Customer pricing for this and remaining fields* options cannot be used at the same time.
- If Permits or Tech Licenses are required on the order, they can be indicated at the bottom of the screen.

Barry Anderson

☐ Apply pricing to all Customers on this Field
 ☐ Same Customer pricing for this and remaining fields

Fert \$/Tons:
 Lock Prices:

Permits

No permits are required for the order

Tech Licenses

No Tech Licenses are required for products on this order.

- Choose **Cancel Remaining** cancels the transaction completely and return to the *Blends* page. Move to the next Field without editing pricing by selecting **Do Not Save Order for this Field**. No Blend is saved for that Field. To save pricing here and move to the next Field, choose **Save & Next Field**. This saves the Blend for that Field.

Note: Separate Blends are saved per Field rather than having a multi-Field Blend.

- On the last Field, **Save & Next Field** changes to **Save & Close**. This saves pricing on the current Field and finalizes the Blend with pricing saved on previous Fields in the Order. If **Do Not Save Order for this Field** is selected on the last Field, pricing is saved on previous Fields where **Save & Next Field** was selected, and the last Field is not included in the Blend.

Notes

1. Enter any *Blend* or *Additional Comments*.

Note: *Additional Comments* are only visible to internal Users.

Applicator ▼	Vehicle ▼	Acres	

[+ Add Row](#)

- **Customer PO #** – This information can be entered if the Customer provides a Purchase Order number for the order.
 - **Control Number** – This number is used to reference an internal control number (such as hand ticket numbers) associated with the sale.
 - **Authorized Agent** – This person is associated with the Customer who is authorized to make decisions. Agents are set up in the Customer file under **Contacts**.
 - **Territory** – This defaults from the Customer setup and is optional information to be used as needed.
 - **State** – This determines which counties are populated in the *County* drop-down.
 - **County** – This defaults from the *Ship To* address. If none are set up, it defaults from the Field, and then from the Customer's setup. If there is more than one Customer on the ticket, it defaults to the settings for the first person listed.
 - **Ship Via** – Enter the method of shipment. The methods are defined at *Hub / Setup / Ship Via*. If a Ship Via is selected and the Blend Ticket is imported into an Invoice in the Agvance Accounting module, the information displays on the Invoice's *Additional Info* tab.
 - **Freight Vendor** – Select the *Freight Vendor* from the drop-down if applicable.
 - **Freight Calculation** – Indicate if the freight amount is *Estimated \$/Unit* or *Estimated Total\$*.
 - **Estimated Amount** – Enter the *Estimated Amount* for freight.
3. In the *Applicator* grid, *Applicators/Vehicles/Acres* can be entered. Choose the **Delete** icon to remove the *Applicator* or **+ Add Row** to include additional *Applicators/Vehicles*.
- **Applicator** – Applicators are set up at *Hub / Setup / Applicators*. The *Applicator* also imports into the Invoice in Agvance Accounting.
 - **Vehicle** – Vehicles are set up at *Hub / Setup / Vehicles* and also import into the Invoice in Accounting.
 - **Acres** – Enter the number of Acres for each *Applicator* involved.

Edit a Blend

To edit a Blend, select find the *Edit* column and choose **Edit** for that Blend. Only unprocessed (not invoiced), not

loaded Blends can be edited.

Note: The Location cannot be edited.

1. Under the *Field* section, the Field selected cannot be changed, but the *Area* and *Unit of Measure* can be edited and a *Ship To* can be added.

Field
