

May 2025 SKY Release Notes

Last Modified on 06/04/2025 11:01 am CDT

Analytics

- **AN-3368 / Inventory Position** – Selecting Products, viewing details, and using the *Date Range* filter works as expected.
- **AN-3366 / Sales Commission Dashboard** – The Sales Commission dashboard calculates the profit percentage allotted to the Salesperson. This is shown on the *Salesperson Summary* tab in the *Commission* column. Additionally, the *Commission Percent* has been added as a filter.
- **AN-3418 / Subscription Schedule** – A subscription schedule was added that will run on the first day of the month at 12:00am CT.
- **AN-3399 / Last Activity Date SKY User Permissions** – The SKY User identifier used in tracking activity has been corrected.
- **AN-3377 / Inventory Forecast Dashboard** – The Inventory Forecast dashboard has been modified to roll up by Product and expand out to Location and Department. The dashboard has new columns to help with determining the position for Products based on forecasted numbers, on order/on hand, and what is on Bookings and unprocessed Delivery and Blend Tickets. A new data source also exists to support this dashboard.

Customer

- **SKYW-4307 / Adding Plans** – Adding Plans from SKY Customer now directs to the [updated layout](#) in SKY Order.

Dispatch

- **SKYC-3302 / Delivery Driver Vehicle** – Vehicles can now be set on existing [Delivery Drivers](#) within the grid and when adding new Drivers.

Energy

- **SKYR-585 / Delete Tanks** – Capability to delete a tank with validation prompts confirming the deletion is available within SKY Energy.
-

- **SKYR-587 / Energy Map Tank Details** – Select a tank icon on the Energy Map to see additional details additionally select the detail line redirecting to the tank info page on a new browser tab.
- **SKYR-758 / Rental Billing Splits on Add Tank** – Add Rental Billing Splits on the Add Tank page or check Same as Energy Billing Splits.
- **SKYR-764 / Product Delivery Order Full Page View** – A full page view of Product Delivery Orders is available when *Ticket Numbers* are selected from the *Orders* grid or Tank History page.
- **SKYR-778 / Location ID on Location Dropdown** – Location ID now displays with Location Name in SKY Energy when adding or editing a tank.
- **SKYR-788 / Driver List when Adding a Tank** – When adding a tank, some customers were not seeing the full *Driver* list. This has been corrected.

Mapping

Version 5.10

Web

- **HW-11822 / Implement Harvest/Planting Merges** – A *Merge Event* option was added to merge Harvest and Planting Data after the Events are created. This option is visible for selected Events of the same *Season*, *Crop*, and *Units* (*Yield Unit/Seeding Unit*).
- **HW-11826 / Field Setup** – When linking to an existing Agvance Field with empty or null values for the *County*, *State*, *Township*, *Range*, or *Section* attributes, these Fields are automatically updated.
- **HW-11869 / Report Books SKY Soil Test Report** – Report Books support large numbers of Fields including the SKY Soil Test Report.
- **HW-12021 / SKY Recs Report Application** – The SKY Recs Report - Application and Recs Report - Application display the actual Applied *Min* and *Max* values as expected. Additionally, the Product Total displays as expected when fl. oz/ac is used for a Fertilizer Product Mix.
- **HW-12055 / Creating Rec Using Layer** – The Generic Shapefile creation process works as expected.

Mobile

- **HW-11916 / Field Last Edited** – Field boundaries display as expected after editing the Field, logging in as a different User, then logging back in as the original User.
- **HW-12009 / Sampling Events** – During a Batch Copy to create new Sampling Events, the *Start* and *End* Event dates are automatically updated to the current timestamp for the first collected point. If more than one sample point is collected, the *Start* date of the first collected point is preserved, and the timestamp of the last collected point is used as the *End* date.
- **HW-12048 / AgBytes Crop** – Newly added AgBytes Crop photos display the entire photo within the mobile app as expected.

Version 5.09

Web

- **HW-11645 / SKY Yield By Report** – The SKY Yield By report is a portrait only report with each imported Harvest Event being its own report. Typical Report Options are available including Season, Start/End Date, Crop, Base Map, and the Custom Imagery checkbox. This report is also supported in Report Books.
- **HW-12008 / Add/Edit Field Boundary** – Adding or editing Field boundaries in the Event Import wizard works as expected.
- **HW-12041 / SKY Soil Test Results Report** – The SKY Soil Test Results report page breaks as expected.
- **HW-12042 / Auto Import Application** – The Auto Import process for Application matches existing Equipment at the Location and Vendor level regardless of the Equipment Type. Additionally, on the *Equipment Profile Setup* grid, the *Manufacturer* column was replaced with a *Monitor ID* column to easily find duplicates. The *Last Modified* column also sorts by timestamp as expected.

Mobile

- **HW-11953 / Planting Event** – Creating Planting Events with a split works as expected.
- **HW-11954 / GPS Button** – Selecting to enable the **GPS** button responds to the first tap as expected.
- **HW-12034 / Sampling Grid** – The Sampling grid works as expected when saving a Sampling Event. Additionally, the *Display Grid on Collection* setting works as expected.

Product

- **SV-2035 / Add/Edit Products** – Those with the User permission in SKY Admin can now add/edit **Products** in SKY Product.
