

Energy November 2025

Last Modified on 12/03/2025 8:10 am CST

- **SKYR-767 / Product Delivery Order Edit** – With the *Add/Edit Order* feature toggled on in SKY Admin, edit a Product Delivery Order on the *Orders* page of SKY Energy that has not been invoiced. Invoiced PDOs will always be view-only.
- **SKYR-768 / Product Delivery Order Delete** – With the SKY User permission toggled on, Product Delivery Orders can be deleted from the *Orders* page using the *Delete* action column if incorrect or unneeded.
- **SKYR-997 / Driver Search** – A search modal opens when choosing + **Add Driver** for a new or existing tank.
- **SKYR-1046, 1056 / Tool Tip Added to Tanks and Orders Pages** – A tooltip has been added on the *Tanks* and *Orders* pages next to the title to explain the loaded dataset: *Up to 500 records displayed. Use the search bar to search all records. Sorting and filter will only affect displayed records.*
- **SKYR-1058 / Budget Billing Info Layout** – The *Budget Billing Info* section when adding or editing a Tank has been updated to expand the *Product Details* area and auto populate the Budget Billing Product.
- **SKYR-1059 / Budget Billing Invoice Tab** – The *Budget Billing* tab displays a list view of all Budget Billing Customer Invoices. For all non-Budget Billing Energy Invoices, see the updated *AR Invoices* tab.
- **SKYR-1063 / Tank Serial Number Edit** – Edit or modify a tank Serial Number on the *Edit Tank* page. When saving, SKY Energy will validate the new number.
