# 7.0.29320 | 12.18.2025

## Accounting

### End of Periods

- **FTM-4849 / Mag-Filer** – MagFiler *2025* is now available in the drop-down at *End of Periods / Print EOY Tax Forms / Setup*.

- **FTM-4878 / Canadian Taxes** – The 2026 Canadian Tax changes were made based on specifications given by the Canadian Revenue Agency. T4a printing specifications:
  - If using Adobe Reader, all options are available. Set the *Orientation* to *Portrait* and the *Custom Scale* to *100%*. Then, choose **Advanced** and check the *Print As Image* option.
  - If using a browser, set the *Orientation* to *Portrait* and the *Scale* to *100%*.
  - Both of these options will work for printing the form.

### Transfers

- **FTM-4853 / PMR Export** – The absolute value is used for Credit Invoices in the PMR Export.

### Patronage

- **FTM-4778 / Patronage ACH Files** – An *ACH Type* can now be selected on the *Miscellaneous Info* tab of a Patron. *PPD* is the default, but *CCD* and *CTX* are also available as options. The *ACH Type* selected will be used in the Patronage ACH file.

## Agronomy

- **FTM-4796 / AgLogic URL** – The URL that is built for AgLogic has been encoded to protect for special characters.

## Energy

### Transfers

- **FTM-4788 / Energy Force Tank Import to Agvance** – Two new options are available on the *Import Energy Force Tanks* window - *Default Rent/Lease Cycle* and *Default Rental Product*. These options allow for either a default cycle or default Product to be added to the rent Tanks that are added from the import. These are only available when adding a Tank.
