

Grade Factor and Average Results - Grain

Last Modified on 08/13/2026 3:47 pm CDT

Quickly identify and select tickets based on specific Grade Factor values.

Navigate to the *Multi-Shrink Options* tab at *Grain / Setup / Preferences* and check the *Display Result* and/or *Display Average Result* columns for the appropriate Grade Factor(s).

The screenshot shows the 'Grain Preferences' window with the 'Multi-Shrink Options' tab selected. The 'Display Grade Factors in Ticket List' table is highlighted with a red border. The table has the following data:

	<Grade Factor>	Display Result	Display Average Result
1	Moist	☒	☒
2	Moisture	☒	☒
3	MST	☒	☒
4		☐	☐
5		☐	☐
6		☐	☐

Once this setup is complete, Results/Average Results are visible in the following places:

- The Customer's *Grain Activity* tab found by editing a Customer at *Grain / File / Open / Customer Account Details*

The screenshot shows the 'Edit A Customer - 000002 Steve Sprout' window with the 'Grain Activity' tab selected. The table below has the following data:
